

Nature's Finest®
L A T E X S L E E P S Y S T E M

Sleep the way Nature intended.

Natural rubber latex is completely PETROLEUM FREE!

Natural rubber latex is nature's most durable cushioning material. Made from the sap of the rubber tree, natural rubber latex is a renewable, natural material with exceptional properties.

Rubber trees are grown on expansive plantations throughout South-east Asia. The milk, or sap, from the trees is tapped and collected by hand. It is then transported to a specialized processing facility where proprietary

techniques transform the liquid into rubber, ensuring the ideal consistency, resiliency, softness and density.

With a Nature's Finest® Mattress by Englander®, Better Sleep Just Comes Naturally.

- Conforms to your body for luxurious, personalized comfort and support
- Reduces pressure points, tossing and turning for more restful sleep
- Exceptionally resilient, latex always retains its shape
- Unique pinhole design provides superior surface breathability for year-round sleeping comfort; cooler in summer, warmer in winter
- No motion transfer between you and your partner for undisturbed sleep
- Non-toxic, odor free, environmentally safe and hypo-allergenic

HELP SAVE OUR PLANET!

When you purchase our natural latex mattress instead of a petro-chemical based product, you will help save the Earth's limited natural resources.

THE COMFORTING TRUTH ABOUT OUR NATURE'S FINEST® LATEX

Englander's Nature's Finest® latex products are made from petroleum-free, **100% NATURAL LATEX RUBBER** that's extracted from rubber trees, not made in laboratories. This renewable resource creates no harsh environmental by-products during manufacturing and produces a soft, supple, luxuriously comfortable sleep surface that's more durable, without the smell of petrochemical based foams. And natural latex's built-in antibacterial protection inhibits allergens, making your bed allergy-free for better sleep.

Englander's Nature's Finest® latex is better for you, and better for the environment:

- *Petroleum-free*
- *Hypo-allergenic*
- *Odor-free*
- *Non-toxic*
- *Environmentally safe*

Best of all, using natural latex rubber helps conserve the world's valuable petroleum supply.

BETTER SLEEP, BY DESIGN.™

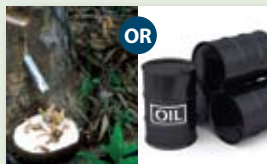

WHAT IS LATEX?

There are two types of latex used in mattresses.

Natural latex is pure rubber obtained from rubber trees while

synthetic latex is a petroleum-based industrial product made by chemical processing.
